Multi-tabling at PokerStars is completed simple by the exceptional feature of being capable to adjust the table windows, so you can adjust the tables to go with any part of the screen you desire which creates playing 4 tables on one screen a breeze.

The software as well gives the qualities like Player Notes, Hand Histories, and personal player stats providing you all the devices you require; well, all the world is too much for man to live and all the tools are more than the normal help you want at poker stars.

The lobby is simple to navigate and it gives all the information you require to discover the game you're searching for fast and without bother. Even with the excellent support provided at pokerstars, there might be hours where you might grumble…well.. it is all in the game..

Chasing in the footsteps of many gaming companies, with Party Gaming, presently PokerStars is the leading online poker operator.
